

“Eagles of the Potomac...View of a Nesting Nursery”

FREE - Live Interactive Satellite Broadcast / Webcast Learning Adventure

Target Audience: Grades 5-7

Thursday, April 20, 2006, 12 Noon – 1:00 pm ET

You can see it on the Great Seal of the United States. Its picture is on our money, state flags and often used for patriotic purposes. What is it? It's the American Bald Eagle, our national symbol. Did you know that this majestic bird, which represents power, authority and freedom, was once threatened with extinction!

Join us April 20 from 12 Noon to 1:00 pm ET for a bird's eye view of our nesting nursery high above the Potomac River in Shepherdstown, West Virginia. You'll have a great view from our tree mounted nest-cam, 90 ft. above the ground! See three eaglets and their parents in their native habitat. Learn more about this American conservation success story and celebrate this all-American bird's tremendous comeback.

Produced by the U.S. Fish and Wildlife Service, National Conservation Training Center. While our target audience is grades 5-7, eagle enthusiasts of all ages are invited to view this interactive program. Students are invited to ask questions during the live event.

Teachers & Home Schoolers: Please register your class for this event.

Your registration will help ensure that we can continue to provide this type of educational event at no cost to schools. Registration is free, quick and easy at: <http://www.imbd.org>

Would you like a preview of the bald eagle nest right now?.....see the link below.
